

Shiyu Hu, Ph.D. Candidate

 1995.10.29  hushiyu2019@ia.ac.cn  hushiyu1995  <https://huyuuusy.github.io/>
 visual object tracking, visual Turing test, evaluation techniques

Education

- 2019.9 - Now  **Ph.D, Institute of Automation, Chinese Academy of Sciences (CASIA)**
Major: Computer Application Technology
Supervisor: Prof. Kaiqi Huang (IAPR Fellow)
Thesis title: *Research of Intelligence Evaluation Techniques for Single Object Tracking* (under review).
- 2017.9 - 2019.6  **M.Sc., Department of Computer Science, University of Hong Kong (HKU)**
Major: Computer Science
Supervisor: Prof. Choli Wang
Thesis title: *NightRunner: Deep Learning for Autonomous Driving Cars after Dark* (thesis grade: A+).
- 2013.9 - 2017.6  **B.E., Elite Class in School of Information and Electronics, Beijing Institute of Technology (BIT)**
Major: Information Engineering
Diploma project supervisor: Prof. Senlin Luo
Thesis title: *Text Sentiment Analysis Based on Deep Neural Network* (thesis grade: A+).

Experiences

- 2022.9 - Now  **Initiator and organizer** of interdisciplinary symposia around computer vision (22 participants from 10+ universities, once a week).
- 2022.9 - 2023.7  **Assisted supervisor** for two undergraduate students about their bachelor's degree projects in University of Chinese Academy of Sciences (UCAS) (one for visual object tracking, one for visual Turing test).
- 2022.5 - 2022.10  **Organizer** of the 3rd High-Speed Low-Power Visual Understanding Challenge in the 5th Chinese Conference on Pattern Recognition and Computer Vision.
- 2018.3 - 2018.11  **Research assistant** at Big-Little Heterogeneous Computing with Polymorphic GPU Kernels project, University of Hong Kong.
- 2016.8 - 2016.9  **Internship** on satellite faster algorithm of hard X-ray modulation telescope for space pilot satellite project at Aerospace Information Research Institute, Chinese Academy of Sciences (internship grade: A+).
- 2015.7 - 2015.8  **Summer school student** for New Media at University of California, Berkeley (course grade: A+) .
 **Team leader** in Summer Social Practice in University of California, Berkeley.
- 2013.9 - 2017.6  **League Branch Secretary** of Elites Class in School of Information and Electronics, Beijing Institute of Technology.

Conference Proceedings

- 1 **S. Hu**, D. Zhang, M. Wu, X. Feng, X. Li, X. Zhao, and K. Huang, "A multi-modal global instance tracking benchmark (mgit): Better locating target in complex spatio-temporal and causal relationship," in *the 37th Conference on Neural Information Processing Systems (NeurIPS, CCF-A Conference)*, 2023.
- 2 X. Feng, **S. Hu**, X. Chen, and K. Huang, "A hierarchical theme recognition model for sandplay therapy," in *the 6th Chinese Conference on Pattern Recognition and Computer Vision (PRCV, CCF-C Conference)*, 2023.

R&D Projects

Independent Developer of Platform Design & Development & Maintenance

- 2019.11 - Now  **VideoCube: A large-scale multi-dimensional global instance tracking intelligent evaluation platform.**
Link:  <http://videocube.aitestunion.com>.
Description: VideoCube presents a video content decoupling framework and implements a large-scale, multi-dimensional global instance tracking intelligent evaluation platform comprising 7.46 million frames. Moreover, a multi-granularity semantic annotation strategy has been proposed to enhance VideoCube's capability in providing high-quality semantic information, thus enabling support for multi-modal research.
Note: VideoCube is the supporting platform for two researches accepted by TPAMI and NeurIPS. It receives 236k+ page views, 1k+ downloads, 360+ trackers from 130+ countries (statistics by 2023.10).
- 2022.03 - Now  **SOTVerse: A user-defined single object tracking task space.**
Link:  <http://metaverse.aitestunion.com>.
Description: SOTVerse introduces a 3E paradigm as a task analysis framework, integrating representative datasets to transform the original static closed datasets into a dynamic open data space comprising 12.56 million frames. Additionally, a subspace construction method is proposed to facilitate user-defined task studies.
Note: SOTVerse is the supporting platform for a research accepted by IJCV. It receives 88k page views from 100+ countries (statistics by 2023.10).

R&D Projects (continued)

2023.02 - Now  **BioDrone: A bionic drone-based single object tracking benchmark for robust vision.**

Link:  <http://biodrone.aitestunion.com/>.

Description: *BioDrone* is the first bionic drone-based single object tracking benchmark, it features videos captured from a flapping-wing UAV system with a major camera shake due to its aerodynamics. BioDrone highlights the tracking of tiny targets with drastic changes between consecutive frames, providing a new robust vision benchmark for SOT.

Note: BioDrone is the supporting platform for a research accepted by IJCV.

Independent Developer of Platform Maintenance & Upgrade

2020.07 - Now  **GOT-10k: A large high-diversity benchmark and evaluation platform for single object tracking in the wild.**

Link:  <http://got-10k.aitestunion.com/>.

Description: *GOT-10k* is constructed to evaluate the generalization ability of trackers on unseen object classes and motion patterns. The platform provides a high-quality video trajectory dataset containing 10,000 video segments, 563 object classes, 87 motion patterns, and 1.5 million tight annotations, where its coverage of object classes is magnitudes wider than other existing tracking benchmarks.

Note: GOT-10k is the supporting platform for a research accepted by TPAMI. It receives 2.44M page views, 6k+ downloads, 14k+ trackers from 150+ countries, and gets 16× page views increase after maintenance (statistics by 2023.8).

Independent Developer of Project Research

2018.06 - 2018.11  **Darknet-Cross: A lightweight deep learning framework for heterogeneous computing.**

Link:  <https://github.com/huuuuusy/Darknet-Cross>.

Description: *Darknet-Cross* is a lightweight deep learning framework based on Darknet and yolov2_light. It provides computation acceleration for multi-platform (e.g., Ubuntu or Android) and multiple types of GPUs (e.g., Nvidia GTX1070 or Adreno 630).

Note: Darknet-Cross is a part of my M.Sc. thesis in HKU (thesis grade: A+).

Co-developer of Project Research

2020.11 - 2021.3  **A project for cell tracking based on deep learning method.**

Link:  <http://celltrackingchallenge.net/latest-ctb-results/>.

Description: This method follows the tracking by detection paradigm and combines per-frame CNN prediction for cell segmentation with a Siamese network for cell tracking.

Note: This project is submitted to the cell tracking challenge in 2021.3, and maintains the second place in the Fluo-C2FL-MSD+ dataset and the third place in the Fluo-C2FL-Huh7 dataset (statistics by 2023.10).

Skills

Languages  Mandarin Chinese (native speaker) and English.

Coding  Python, Java, Matlab, C, \LaTeX .

Development  Android, Flask, SQLite.

Linux  Shell, OS virtualization.

Misc.  Academic research, leadership, presentation.

Awards and Honors

- 2023  **China National Scholarship**, Ministry of Education of the People's Republic of China (Top 0.2%).
  **First Prize of Climbing Scholarship**, Institute of Automation, Chinese Academy of Sciences.
- 2022  **Merit Student**, University of Chinese Academy of Sciences.
- 2017  **Academic Scholarship**, Beijing Institute of Technology.
  **IE Admission Scholarship**, Chinese University of Hong Kong.
  **Excellent Innovative Student**, Beijing Institute of Technology.
- 2016  **Academic Scholarship**, Beijing Institute of Technology.
  **College Scholarship**, Chinese Academy of Sciences.
  **Excellent League Member on Youth Day Competition**, Beijing Institute of Technology.
- 2015  **Academic Scholarship**, Beijing Institute of Technology.
  **National First Prize**, Contemporary Undergraduate Mathematical Contest in Modeling (Top 1%).
  **First Prize of Mathematics Modeling Competition**, Beijing Institute of Technology.
  **Outstanding Individual on Summer Social Practice**, Beijing Institute of Technology.
  **Second Prize on Summer Social Practice**, Beijing Institute of Technology (Team Leader).
  **Outstanding Student Cadre**, Beijing Institute of Technology.
  **Outstanding League Cadre on Youth Day Competition**, Beijing Institute of Technology.
  **Outstanding Youth League Branch**, Beijing Institute of Technology (Team Leader).
  **Top 10 Activities on Youth Day Competition**, Beijing Institute of Technology (Team Leader).
- 2014  **Academic Scholarship**, Beijing Institute of Technology.
  **Outstanding Student**, Beijing Institute of Technology.
- 2013  **Academic Scholarship**, Beijing Institute of Technology.
- 2012  **Second Prize of the 27th China Adolescents Science and Technology Innovation Contest**, China Association for Science and Technology.
- 2010  **Merit Student**, Zhengzhou, Henan Province.
